

Free updates and phone support—Receive all product updates and upgrades to help you stay up-to-date with the latest tax tables and legislative changes. Plus, benefit from free weekday technical phone support.

Work offline or online—Your Reckon Hosted company file can be downloaded and worked on using your Reckon Enterprise desktop edition, a great backup if your online connection is unavailable for any reason.

One desktop Reckon Enterprise Licence is provided on request per customer with the purchase of the first current Reckon Hosted Licence.

Advanced Data Security—Your data security is the priority. The service is securely hosted with mirrored services across two Australian locations to safeguard your data. Stored material can only be accessed and modified by the registered user who also ensures users only see the information needed to complete their job. For complete peace of mind, you can also backup data on your local hard drive.

Simple IT requirements—All that's required is Microsoft Internet Explorer 7 or higher, Mozilla Firefox v9 or Google Chrome and a broadband internet connection. Also compatible on Mac, iPad and Android devices.

Share files easily—Your accountant or bookkeeper can simply access your data, improving efficiency and collaboration.

No training required—Reckon users will find the online version is just like their desktop product eliminating the need for additional training.

You can access the file by logging in via an internet connection to the Reckon Server. When you log in you have access to a Q drive on which you can store your data file (this occurs by copying and pasting the file from your local computer).

The file is then hosted in the cloud and can be accessed by your users, your accountant and bookkeeper.

Reckon Enterprise is the version used which includes payroll. If you were to leave cloud and return to a desktop product, you would need to purchase Enterprise as the data file can not be downgraded.

Cost is as follows:

- \$630.00 per annum, or \$58.00 per month.
